

PENNSBURG BOROUGH **RAIN GARDEN WORKSHOP**

Date & Time:

Tuesday, June 10th, 2025

6:00 pm - 7:00 pm

Location:

Pennsburg Borough Hall

Meeting Room

76 W. 6th Street

Pennsburg, PA 18073

About the Workshop

Join the Perkiomen Watershed Conservancy to learn all about rain gardens and their many benefits! Different methods to manage stormwater runoff on your property will be discussed along with a step-by-step process of installing and maintaining a backyard rain garden.

What is a Rain Garden?

A rain garden is a bowl shaped garden designed to collect several inches of water during a storm, providing time for infiltration into the ground and absorption by native plants - 2 natural ways of filtering out pollutants!

Rain Garden Benefits

- Reduces stormwater runoff and flooding.
- Filters pollutants.
- Recharges groundwater resources.
- Low maintenance landscaping!
- Attracts birds, butterflies and other wildlife.
- Increases beneficial insects.
- Decreases mosquitos
