

# SNOW REMOVAL INFORMATION

- When possible, move parked cars from the street prior to snow fall. This allows the street to be plowed from curb to curb, minimizing snow piles.
- Please wait until the plow trucks have finished on your street before you begin clearing snow from sidewalks and driveways.
- It is unlawful to deposit, shovel, or pile snow onto the streets, alleys or public highways.
- Every owner or occupant has the responsibility to remove snow, ice, hail and sleet from the sidewalks within 24 hours of accumulation.
- Snow must be removed from around all fire hydrants by a minimal distance of 12 inches and must be clearly visible from the street.
- While shoveling, please be sure to clear a pathway for pedestrians at all corners and crosswalks.
- Please limit or avoid parking in all cul-de-sacs.
