INSTRUCTIONS FOR COMPLETEING BUILDING/ZONING PERMIT APPLICATION

- Please be aware that if you are the homeowner and are taking out the permit for your contractor, it is recommended that you check on their insurance. Under certain circumstances, if you contractor is uninsured, you may be held liable if an accident occurs to them or their workers.
- New houses require lot specific site plans showing house footprint, all setbacks, and finish grade elevations. This plan must be prepared and sealed by a registered professional surveyor.
- Property owners /agents are responsible for all site dimensions and locating the improvements in accordance with all applicable codes. If you are unsure of the location of your property lines, contact a civil engineer or surveyor and have all dimensions and locations certified by a design professional.
- As provided in the Code, the Building Code Official may require additional engineering or design information to determine compliance with the applicable Codes.
- The permit application will be dated when it is submitted and will be reviewed within 14 business days for residential work and 30 business days for commercial work. When planning the project, allow for this review period.
- If your application is missing any required documents or is incomplete, it will be denied. When the application has been completed, you may resubmit your application and the review period will start over.
